Park Facilities

Everyone has a role in making sure our community is as safe as possible to remain open. Reducing the risk of exposure to COVID-19 by cleaning and disinfection is an important part of using public spaces.

*We all have been called upon to slow the spread of the virus.*

**Behavioral Practices:**
- Stay home when you are sick.
- Frequently wash hands using soap and water or use alcohol-based (at least 60% alcohol) hand sanitizer when soap and water are not available.
- Wear cloth face coverings, even outdoors and playing, when distancing is not possible.
- Avoid touching your eyes, nose, and mouth.
- Clean and disinfect frequently touched objects and surfaces.
- Limit shared objects such as sports equipment when possible and disinfect often.
- Practice Physical Distancing whenever possible- specifically, staying 6 feet away from others not in your household when you are using a shared space.
- No buffet style eating – do not share utensils.

**Restrooms**
If the restrooms are operational, Groups with Township Permits must disinfect before and after uses, in addition, the facilities will be sanitized daily. Operation will depend largely on users’ care.
Clogs and vandalism will require the facilities to be closed.

**Trash & Recycling**
Please take all recycling with you for proper disposal.
If the receptacles are full or near full, please take your trash with you.

**Water Fountains**
Will remain **CLOSED** this summer. *We experience too many clogging issues to safely operate them during this pandemic.*

Please be aware of current State, County and CDC guidance regarding the use of Public Spaces as specific requirements continue to evolve.
