

**Latex Paint (water –based)
is NOT
Hazardous Waste**

Leftover latex paint can be disposed of safely
in several ways:

- ⇒ For small amounts, remove lid and let air dry in well ventilated area; or
- ⇒ Pour an absorbent material such as kitty litter, sand, sawdust, or paint hardener in the can, stir, leave lid off can. The paint will absorb into these materials and speed along the drying process; OR
- ⇒ For large amounts, dump paint into a trash bag lined cardboard box, stir in an absorbent material and let dry.

Once the latex paint is **completely dry**, whether in a box or original paint can, it is safe for disposal and may be put into your regular trash for pickup.

Oil based paint IS hazardous waste and must be disposed at an approved hazardous waste collection site. **Lower Merion Township’s Hazardous Waste Collection Day is October 20, 2019 from 9:00-3:00 PM** at 1300 Woodbine Avenue, Penn Valley
